## SMART BIRD SCALE

**RECEIVE ACCURATE BIRD WEIGHTS IN REAL TIME, AT ALL TIMES**

### ADVANTAGES

- ▶ Provides early warning on bird health issues
  - Reduces medication costs
  - Reduces mortality
- ▶ Better than manual weighing
  - Avoid stress on birds
  - Shows daily weighing
  - Platform designed to encourage birds to hop onto the scale
  - Reduces labor
- ▶ Provides vital management information for improvements in bird performance
- ▶ Provides shipping weight control. Allows you to adjust lighting and feeding well in advance to maintain target weight

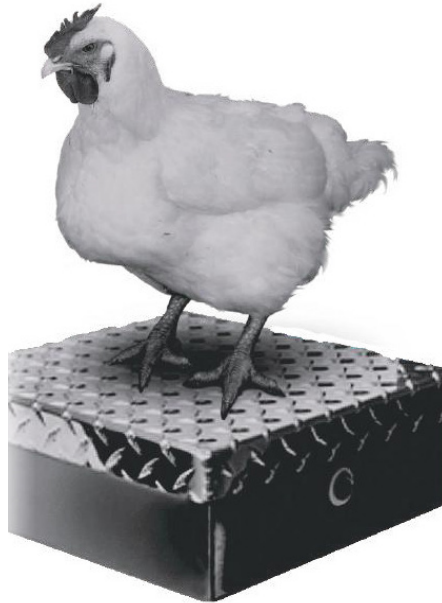

### FEATURES

- ▶ Easy and fast access to daily or cumulative flock information
  - ▶ Average weight, daily gain
  - ▶ Daily weighing's are categorized into seven different weight groups
  - ▶ Standard weight deviation
  - ▶ Uniformity bandwidth
  - ▶ Up to 4 scales can be controlled to one controller (Breeder scales and /or suspended scale platforms)
  - ▶ Monitor each bird scale independently (average of multiple scales)
  - ▶ Keeps flock information in memory up to 125 days
  - ▶ Export history log in .CSV format for the age, average weight and # weighing
  - ▶ USB port for backup and update

## ACCURACY

- ▶ Trade quality load cell
- ▶ Litter and manure build up do not influence weighing accuracy
- ▶ More weighing hits each day
- ▶ No electrical wires under the platform

## INSTALLATION

- ▶ Chain suspended platforms:
  - Easy to adjust the height
  - Load cell is located above the platform away from the litter
  - Easy to remove during cleaning
- ▶ Breeder scale platforms:
  - Strong and durably built
  - Electronic components are located above the platform away from the litter
  - Easy to remove during cleaning

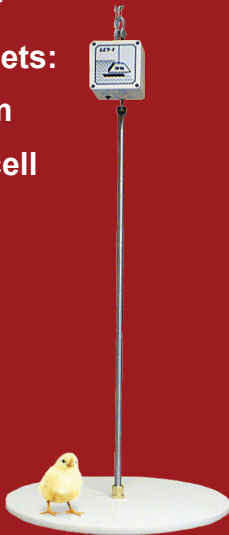

## OPTIONAL REMOTE ACCESS

- ▶ Complete remote access in real time via internet
- ▶ Automatically forwards graphs and reports by email
- ▶ Data history
